

The resilience of bird species in a Brazilian Atlantic Forest remnant in the face of accelerated extinctions in the Neotropics

Supplementary Online Material 1. Studies conducted at the Caetetus Ecological Station, south-eastern Brazil, recovered by the literature review. Years of publication (number of references).

1981-1990 (6)

1991-2000 (3)

2001-2010 (12)

2011-2020 (4)
